London, Feb. 27.-After having completed the destruction of the forts at the entrance of the Dardanelles, the allied fleet of British and French warships, the greatest which has ever been in action, are now attacking the inner forts, which heretofore have stood between Turkey and invasion by the sea.

Apparently, the outer forts could not withstand a great bombardment, and when they had been leveled and deserted by their defenders, men were landed from the ships to complete the work of demolition, while mine sweepers cleared a passage for ships in the

Villa reports say Angeles has about 20,000 men, while Carranza sources indicate that the force numbers between 10,000 and 12,000 men. It is said they are intrenched in fortifications built by Gen. A. I. Villareal and are well supplied with food and ammunition and several batteries of artillery planted at advantageous points in the mountains which almost surround the city.

This committee reported unfavorably these bills: By Harley, providing for the filing of a number of classes of suits to be filed in Travis county; Cowell's bill which would permit the killing of doves in Cooke county; Hall's bill amending the pisco, carrying law so as to permit private citizens to carry a pistol; Morrow's measure which would authorize the supreme court to make all the rules of procedure for all inferior courts. This last named bill was prepared by former Senator Senter of Dallas.

and two joint resolutions, proposing amendments to the constitution, were introduced in the house today. The joint resolutions are: By Reeves, making the terms of governor and to other state elective officers four years and each official ineligible to succeed himself, and permitting the legislature to fix all salaries; by Payne and others, providing for the appointment of a state superintendent of penitentia-ries by the governor and placing in his control and management the state.

The bills are: By Harris, changing the time of holding court in the Fortyninth judicial district; by Tillotson and others, authorizing commissioners courts to create and establish levee improvement districts and to construct and maintain levees to prevent overflows; by Tillotson and others, applying the Torrens land system.

Washington, Feb. 27.—Plans for an extra session of the senate to ratify treaties and confirm nominations, immediately after March 4, has been abandoned. The foremost possibilities being considered today was an extra session beginning probably on October 1, two months earlier than the Sixty-fourth congress ordinarily would assemble.

Leaders today were agreed that by assembling about October 1 an early start also could be made on the remainder of the administrative program which includes the Philippine bill, the conservation bills, the regulation of issue of railroad securities and the ratification of the pending treaties with Nicaragua and Colombia. The situation on the ship bill still is indefinite.

Favorable action was taken today by the senate interstate commerce committee on all President Wilson's nominations to the federal trade commission except George Ruble. That removed one remote possibility of an extra session of the senate in March.

TEA WITH MRS. W. M. FOSTER, Y. W. A. THE HOSTESS In the rounds of holiday giving at the homes of the poor, the girls of the Y. W. A. from Columbus Street Baptist church found a tiny tot, blind. Interest was immediate, and, since, practical steps have been taken. It is found that, probably, an operation will restore sight; in any event, in two years entrance can be had into the blind asylum, and this babe educated. The Y. W. A. has secured the service gratuitously of a local oculist, and, if he feels justified, the operation will be performed. The Y. W. A. is defraying all expense. This act of mercy is laudable for these young women. In order to raise the fund, a parlor tea was poured with the Y. W. A. director, Mrs. W. M. Foster, during Friday afternoon. The inclement day prevented the large attendance hoped, but not the pleasure of the dozen or more hostesses and those who called. Miss Mary Lou Bagby with piano and Miss Elizabeth Morrow with reading added a program feature. The tea table was

TEXAS FLAG CONTROVERSY HAS REACHED SOLUTION Many of us have followed the conwith interest; some with a tinge of vindictiveness. Attention was turned to the flag when the late Governor Colquitt took steps to secure the body of Mrs. Troutman and have it conveyed from Georgia to our state cem-etery in Austin. The Texas Daugh-ters of the Confederacy challenged the governor's statement that Mrs. Trout-man gave to Texas the Lone Star Flag, by making such an emblem and presenting to the company who left Georgia for Texas. The last two presenting to the company who left Georgia for Texas. The last two weeks seems to have settled the controversy, and the Troutman flag seems the one of best authority. the one of best authority. There were two, and very plausible cause for con-fusion. The Daughters of the Republic were inclined to the one used by Fannin and his men in the siege of Goliad. It looks as though the last information will give undisputed honor to the Lone Star banner made by Miss Troutman, and used in Texas.

MISS SADIE HAWTOP SHOWERS MISS HABER

Invited to be one of the attendants in the coming wedding of Miss Nan-nette Haber, Miss Sadie Hawtop of Austin avenue was hostess to a very pretty combination of bridge and shower on Friday afternoon. It was, first of all, bridge, for that fascination never wanes. As the clock pointed the hour of five, a tiny Cupid came tugging along with his express wagon belonging to the company, "N. H. L." This little fellow proved Master Sidney Goldman from Saint Louis, and his immense load was the collection of miscellaneous gifts loaded by the incoming guests of Miss Hawtop. Thus, Miss Haher, when she goes a bride to her Missouri home, will have a reminder of each guest who spent this happy hour with her. In addition to the accustomed game favors, Miss Hawtop had each bridge table guarded by a frolicsome Kewpie. Cutting for these, there were scored as winners, Mrs. A. L. Marks, Miss Mildred Freund, Mrs. Charles Rosenthal, Mrs. Harry Sachs, Miss Rachel Strauss and Miss Honore Silbert of Dawson. Miss Miss Honore Silbert of Dawson. HELEN KELLER HAS COME; NEVER WILL WE FORGET

Never before has our community

been so stirred over the exaltation of

the soul as we have been by Helen

Keller. That young woman, with the soul, that through the eyes only one can look from within to the world without. Sightless eyes has Helen Keller, and yet, if one within the vast audience at Carroll chapel on Friday night did not see the soul of that woman manifest externally, callous in deed was that person. Never again will we have the impression of Helen Keller a dejected, vacant-faced girl She holds her body erect, her clothes are well placed, she dresses neatly and in good taste, she is happy, hu morous, sympathetic, intelligent, clev er at repartee, and very responsive to all. Among the hundreds of women who sat before Helen Keller, all with the five senses in constant play, there was not one so much in touch with world affairs, so much in sympathy with daily life, as this wonderful wom-an. Yet, scarce more than thirty, she has mastered her last difficulty, the power of speech. She can articulate and use voluntarily an extensive vo-cabulary, and her clearness of pronunciation is increasing with every day. Helen Keller sings, she dances, she uses her typewriter, she converses in more than one language, and she reads through her raised alphabet magazines, the news from several countries. Her friends, foremost men of literature, art, music and states-men, are in constant correspondence with her. They tell her of their work, and of their thoughts. Thus, her mind is in touch with the world at large, and her soul responds. Helen Keller is the most wonderful woman ever born; and the end of her accomplishment is not yet. Her teacher, Mrs. Macy, in her address, said she had never decided whether she had taught

San Antonio, Feb. 27 .- Official advices received here today by owners of the Cmamberlain estate tell of the execution of J. Cervantes, a Mexican-American and manager of the estate at Cerritos, San Luis Potosi, by order of Col. Nemesio Reyes, a Villista commander. The state department at Washington today con-firmed the report. Cervantes had been commanded by

Gen. Alberto Avila, a Carranza official, to cut wood on the estate to supply fuel for the railroad operated by Carranzistas.
United States Consul Bonney asked
General Avila to withdraw his order. The Carranza official would not comply and the American manager was killed by Villistas for executing a Carranza com-mand, the refusal of which meant death.

Extra Session Plans Have Been Abandoned

Washington, Feb. 27.—Plans for an extra session of the senate to ratify treaties and confirm nominations, immediately after March 4, has been abandoned. The foremost possibilities being considered today was an extra session beginning probably on October 1, two months earlier than the Sixty-fourth congress ordinarily would assemble.

Leaders today were agreed that by assembling about October 1 an early start also could be made on the remainder of the administrative program which includes the Philippine bill, the conservation bills, the regulation of issue of railroad securities and the ratification of the pending treaties with Nicaragua and Colombia. The situation on the ship bill still is indefinite.

Favorable action was taken today by the senate interstate commerce committee on all President Wilson's nominations to the federal trade commission except George Ruble. That removed one remote possibility of an extra session of the senate in March.

Twenty Warships Engaged. London, Feb. 28.—Twenty warships of the allied fleet entered the Dardenelles at noon Saturday and bombarded the inner forts, according to a dispatch from the Athens dispatch of the Exchange Telegraph company. The message adds that a battleship bombarded a Turkish camp on the gulf of Saros.

Allies Ready to Stop Shipping to Germany

London, Feb. 27-Great Britain, France and their allies have advised neutral countries that they hold themselves at liberty to stop all shipping to and from Germany and the countries of her allies. Public announcement of this action will

have been able to maintain all their strength at all points and to throw in new troops where they are necessary.

As a result, the Austro-German plan of compelling them to weaken their center by attacking the two extreme wings, has failed, and while the Russians have been forced from East Prussia and Bukowina, they have been able to make a stand, delivered counter attacks which apparently are making some headway.

MRS. H. C. LINDSEY FOR THE ART LEAGUE

By special request, Mrs. H. C. Lindsey is permitting her review of the Art league and what it has done for this city to be published in the Morning News. Mrs. Lindsey has been active in the work of the league since the day of its organizing. None is better qualified to tell what has been done. She read the history at the last session of the Art league and the new members were astonished at what they heard. Since the work of the league is purely for the public, the men and women of this community ought to know just how much has been stimulated. It is hoped that when Mrs. Lindsey's article appears, all will By special request, Mrs. H. C. Lindbeen stimulated. TEA WITH MRS. W. M. FOSTER, Y. W. A. THE HOSTESS In the rounds of holiday giving at the homes of the poor, the girls of the Y. W. A. from Columbus Street Baptist church found a tiny tot, blind. Interest was immediate, and, since, practical steps have been taken. It is found that, probably, an operation will restore sight; in any event, in two years entrance can be had into the blind asylum, and this babe educated. The Y. W. A. has secured the service gratuitously of a local oculist, and, if he feels justified, the operation will be performed. The Y. W. A. is defraying all expense. This act of mercy is laudable for these young women. In order to raise the fund, a parlor tea was poured with the Y. W. A. director, Mrs. W. M. Foster, during Friday afternoon. The inclement day prevented the large attendance hoped, but not the pleasure of the dozen or more hostesses and those who called. TEXAS FLAG CONTROVERSY HAS REACHED SOLUTION

Many of us have followed the con-troversy concerning Johana Troutman with interest; some with a tinge of vindictiveness. Attention was turned to the flag when the late Governor Colquitt took steps to secure the body of Mrs. Troutman and have it conveyed from Georgia to our state cemetery in Austin. The Texas Daughters of the Confederacy challenged the ters of the Confederacy challenged the governor's statement that Mrs. Troutman gave to Texas the Lone Star Flag, by making such an emblem and presenting to the company who left Georgia for Texas. The last two weeks seems to have settled the controversy, and the Troutman flag seems the one of best authority. There were two and very plausible convergers two, and very plausible cause for con-fusion. The Daughters of the Republie were inclined to the one used by Fannin and his men in the siege of Goliad. It looks as though the last information will give undisputed honor to the Lone Star banner made by Miss Troutman, and used in Texas.

SELF-SUPPORTING STUDENTS.

A census of the students who are working their way through the University of Texas reveals the fact that about thirty students are acting as carriers for various newspapers. The Austin Tribune alone is using twelve university students as carriers. The Texan, a student publication, uses two carriers and a mailing clerk, all of whom start on their duties at 4 a. m. Some of the papers published in other cities use university students as delivery boys, the San Antonio Express for example, using three.

Mr. Glenn Pricer, manager of the Tribun, says that he finds the students to be more reliable than other carriers. FARM JOBS GO BEGGING.

The report from Chicago that farmers in the vicinity of that city are unable to obtain farm labor, despite the fact that many thousands of unemployed are in Chicago, is not repeatedly heretofore, says the Houston Post. Even such inducements as transportation, board and washing do not attract.

Thus we see that the unemployment problem is not nearing a solution with the increasing demand for farm labor.

Excavation is about completed for the Watt hotel, to be erected at Fifth and Franklin streets. A steam shovel was used in the work, which has progressed rapidly. The hotel will be six stories in height, and will have a roof garden. Mr. Watt stated yesterday that he would only wait for somewhat more favorable conditions before finishing the work.

The municipal market building to be erected at Eighth and Austin by the Busch interests will soon be a reality. The Busch people recently bought the lot across the street from the Riggins hotel from Mayor J. W. Riggins, and announced that they would build a market upon it. G. H. Luedde, manager for August A. Busch & Co., in Waco, said yesterday that the plans were in the hands of the architects in St. Louis, and that as soon as the Busch heads return from Pasadena, California, where they are at present, the matter will be taken up again.

R. T. Dennis is planning elaborate improvements on the building now owned by him at Sixth and Austin. The entire building will undergo extensive changes. A new front will be put in for the 44 feet on Austin avenue. This will be divided for two stores, each of which will have an Austin avenue frontage of 22 feet, and will extend back 80 feet. Plate glass windows will also be put in the Sixth street front, and back of the two Austin avenue stores will be four stores each 20x44 feet. Awnings will cover the sidewalk on each street. The work will entail an expenditure of probably \$10,000.

The railroad commission contends that it now can control the interurbans if it so desires. There are less than 400 miles of interurban lines in the state. Senator McCollum is not favorable to the measure even as amended. Speaking of the bill which seeks to amend the insurance law, Senator McCollum said that he considers it one of the most important measures before the legislature. The amendments would allow many insurance companies who left the state on amendments would allow many insur-ance companies who left the state on account of the law, to come back. Governor Ferguson has been assured by the companies that \$25,000,000 will be invested in Texas by the companies so returning, if the law is amended. When the fraudulent advertising bill comes to the senate he will use all his power to secure its passage, Senator McCollum said. He said that taking his seat, as he did, three weeks after the legislature convened, he had much

Woman's proverbial resourcefulness carrying her point came prominent-forward at Baylor last night when a in carrying her point came prominently forward at Baylor last night when a number of young women of the dormitories, anxious to see a course in domestic science established at the university invited a few influential friends from among the members of the faculty, board of trustees, and others out in the city to a dinner at Burlesor Hall, planned, cooked, served and followed up with the dishwashing by the girls themselves. The visitors declared the affair one of the cleverest they had attended.

The cooks, waitresses and dishwashers were chosen by an executive committee composed of Misses Juanita Smith, Corre Ivey and Nacmi Watson, and so selected as to represent all the four college classes, the special students and the academy. Among the dishwashers for instance were the class beauties of the senior, junior, sophomore and freshman classes and three fine arts graduates, indicating that service is not incompatible with beauty and artistic accomplishments. The young women prepared the menu and then served the dinner for themselves and visitors at a cost not to exceed a regular dinner served at the dormitory, and the menu was so balanced as to furnish just the propor-

After the dinner had ieen served Miss Illeta Griffith as mistress of ceremonies introduced a few speakers. W. Roy Christian, editor of The Lariat toasted The Cooks. When he had completed his speech the six young women who had cooked the meal marched into the dining room in their uniforms and recited that familiar stanza to the effect that, "We can do without art, we can go without books, but civilized men can not live books, but civilized men can not live without cooks."

Miss Snow Johnson favored the au-dience with two vocal selections, aft-

Miss Erma Voss furnished two piano selections after which Mrs. J. M. Evans toasted the "Dishwashers," which was a signal for the dishwashers to march in beating their pans and plates and singing a specially prepared ditty on their preference for that line of work.

Yellow is known as the color of sunshine, while red is always suggestive of warmth, like Helen Keller said. And that reminds of the famous "Blue Boy." The story goes that the rivals, Sir Joshua Reynolds and Thomas Gainsborough, waxed warm in argument over the cold color, blue. Reynolds insisted that a picture could not bear a blue tone alone, and be attractive. Gainsborough took the opposite. The "Blue Boy" was his proof. And he won. at Golf at an End

Houston, Feb. 27.-In what was prob ably the hardest-fought and most spectacular golf matches that ever decided the championship of Texas, George V. Rotan of Waco was defeated here this afternoon in the finals for the title by

Charles Dexter of Dallas. Rotan seemed to be off his game in the morning and Dexter took the eighteen. Friends of the champion, however, refused to give up the match and their man came through in the afternoon with a burst of hard steady golf that took him to the thirty-sixth hole but one behind and Dexter apparently nervous. Rotan seemed to be going better all the time, while, and it was agreed by critics in the large gallery that should the Wacoman succeed in carrying the match to an extra hole he could win. Dexter, however, took a decided brace and managed to halve the last hole, thus winning the match and the title.

Dexter tonight is the center of interest, he having won his way to the final by defeating Chick Evans of Chicago, picked by many as the best golf player in America. Varden, the English professional, in particular, is explicit in naming the Chicagoan as the best of the American players he saw during his visit in this country.

Freddie McLeod, former open champion, duplicated his feat of 1914 by winning the 26-hole medal play open championship for professionals.

With the playing of all finals today the tourney came to a close. It was by far the most successful golf meet yet held in the state, and the game made big strides in the southwest because of its success. man came through in the afternoon with

DEPARTMENT DEVOTED TO THE FOSTERING OF MUSICAL INTERESTS OF WACO AND CENTRAL TEXAS. By ZUMA WALLACE, . Independent Phone 1607

The Little "Pacemaker."

The following incident of the unusual musical development of the little Hungarian violinists was related to me by a promising American artist who was to take his first lesson from Professor Hubay:

"I had to wait quite a while before being admitted to Prof. Hubay's studio, for he was engaged with another pupil at the time I called. While walking up and down, nervpusly awaiting admission, I heard the other pupil give a most wonderful rendition of the Tchaikowsky concerto. All my talents and musical accomplishments shrank smaller and smaller with each measure that artist-played. I had a strong inclination to run home, pack up and go back to the States and never again look at a fiddle. Upon the completion of the concerto Prof. Hubay exclaimed, 'Bravo,' and the next moment the door opened to signify that the lesson was over.

"I almost fainted upon catching a glimpse of the 'other pupil,' for the maestro was a red-haired little fellow of nine, with an imp-like, mischievous face that one would never dream of associating with the serious study of the violin.

"I entered the studio like a man on his way to the executioner. When

pianists hurried along to the conserva-tory, discussing this or that move-ment from a symphony or concerto, criticising this or that great artist they had heard, often making strikingly truthful remarks, and all in most se-rious vein. These same little fellows will sit through a long symphony con-cert or quartet program with the scorebook in their laps following each motif with the greatest interest. Such extraordinary quartet playing as the extraordinary quartet playing as the Hungarian Quartet (Waldbauer-Karpel), which was discoursed in the most critical European musical centers, is the result of careful training and true musicianship, otherwise no such re-sults could be attained in the highest form of classical music by young men yet in their teens. Chamber music playing has become a social obligation. I could quote the names of forty to fifty Hungarian lawyers, engineers and followers of profession at whose homes chamber music, once or twice

homes chamber music, once or twice a week, is as strongly an established custom as, for instance, euchre parties in our upper social circles.

I recall a grizzly headed old judge at whose home gathered a party of musicians who played trios, quartets and other forms of chamber music two or three times a week for the mere love of the art. On one occasion they were short a first violinist. In the were short a first violinist. In the court yard of the adjoining house a number of boys were playing. The judge shouted down to them:

"Ho, boys, who wants to play first violin in my quartet?"

ety to do his best. It requires little explanation to show the advantageous result such influences must have over a child. With the high ideals of music that are being developed within, his conception of life in all its phases broadens and he unconsciously fits himself to ap-

"I entered the studio like a man on his way to the executioner. When asked to play a scale in G I prayed that the red-headed little gamin might be a mile away and not eavesdroppins as I had been."

While in Budapest I frequently observed the children leaving the afternoon primary school, and invariably found that those without music rolls or violin case under their arm were the exception. The little fiddlers and planists hurried along to the conservatory, discussing this or that moveof community uplift, not only the com-poser of music, but the poet, the paint-er, the sculptor and the master of pageants. During the last quarter of a century the painter and sculptor have had an immense extension of their field of action and a corresponding equal pecuniary gain, from the decision of nation, states and cities to make their public buildings more beautiful without and within, so in days that be just ahead, the musician and the poet are to enter into their promised land. Community patriotism is to express itself in higher ways than of yore, with less blare of trumpets, less reliance on fireworks and less cheap eloquence.

Operetta at Sul Ross School.

Washington's birthday was celebrated by Sul Ross school, of which Prof. Flanniken is principal, last Monday afternoon by the historic operetta, "Betsy Ross, or the Origin of Our Flag." The principle characters were "Betsy Ross," assumed by Francis Wilson, George Washington by A. C. Bowles, "Robert Morris" by Charles Westbrook, and "George Ross" by Howard Creasy. These characters

sang the solo parts and the thirteen sailor girls, who represented the thirteen original states, with two flag girls, and fifteen soldier boys gave the choruses and marches.

The operetta was given by the pupils of the fifth grade which is taught by Misses Sophia Ahrenback and Mabel Quay. Much credit is due Miss Quay and Mrs. Ella Lovelace for training the pupils in this interesting Immediately there was a rush to get the honorable post of the first violin stand. The youngster chosen was scarcely twelve years old. The others asked permission to sit around and listen. The little chap played his partin admirable style. He seemed so self-conscious of the important part he was taking. Add to this the pride of having been chosen from so many applicants and one may picture his anxiety to do his best. training the pupils in this interesting and instructive entertainment, thus

In a recent speech at a meeting held in the interest of Berea college, Kentucky, founded to educate the mountaineers, President Wilson said that "the only thing that is worth while in human intercourse is to wake somebody up." If the Euterpean Club can succeed in awakening Waco people and especially the educators to the mind but other faculties, then the workers in this club will feel that they have done something worth whole. In an editorial of "The Etude" James Francis Cooke said:

Time and again history has contradicted the old Latin proverb, Vox populi, vox dei. The voice of the people is often very far from being the voice of God. Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradic-tion that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for womenand every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.

WALTER COLQUITT HOME NOW OWNED BY TEXAS

The past week has found the formal transmission of the Walter Colquitt home transmission of the water Conduct home to the care of the state. This home is one peculiarly near to the heart of the Texas woman for two reasons: First, it is the refuge for Texas children afflicted with tuberculosis of the bone, and,

Much has been said and done in behalf of sending the library to the rural districts. And much has come therefrom. But Mrs. Nat P. Jackson, than whom no one woman in Texas is better qualified to speak, said at the Galveston federation meeting: federation meeting:

In the evening the husbands and sweethearts of the Shakspere club members were entertained with a repetition of the program of the afternoon, with the addition of living pictures of colonial dames and Shakspere's characters.

MRS. MCCRORY OF EDNA HEADS FOURTH DISTRICT

MRS. MCCRORY OF EDNA HEADS FOURTH DISTRICT on the farm is far in advance of her sister in Texas. Miss Stearn in her personal work with Wisconsin library extension, presented quite a different picture. She said her women looked eagerly for the traveling library; that they read, and that their ambition was to give their children college educations. This is proof that the work of the Texas women within the next five years will bear fruit in this farm life awakening.

MRS. MAGGIE W. BARRY ON SMITH-LEVER BILL Mrs. Maggie W. Barry of Sherman has

investigated the terms of the Smith-Lever bill and at Galveston she presented a resolution which passed by a rising vote. This resolution was that the wom-en of Texas write personal letters to Claren of Texas write personal letters to Clarence Ousley, asking that he use his influence to get a 50 per cent appropriation from the amount to be used for the women on the farm. As it is now, only 24 per cent is to be used for the home. Mrs. Barry also embodied in her resolution that this fund for the women be placed at the disposal of the home economic department of the state university and the College of Industrial Arts, under the direction of a representative from the Agricultural and Mechanical College. Otherwise, Mrs. Barry feels that the money may be spent in building a home economic department for the Agricultural and Mechanical College, where none now exists. The object, as Mrs. Barry presented her resolution, merely gives...more money to the two departments already existing, than for the building up of a third which does not yet exist.

state. The amount obtained by Texas increases at such ratio as to give Texas \$300,000 at the end of the tenth year. This is desired for the home and not the schools. While the women are becoming muchly intrested, very few of these yet know the exact terms of this much-discussed Smith-Lever bill.

STUDY SUFFRAGE CLUB ON SMITH-LEVER BILL

The past week has found the Study Suffrage club of Wacc taking lead in is the refuge for Texas children afflicted with tuberculosis of the bone, and, secondly, it is built from the pennies of the men and women who purchased Red Cross Christmas stamps three years ago.

A SENSIBLE IDEA GIVEN
BY MRS. NAT P. JACKSON

Much has been said and done in behalf of sending the library to the rural half of sending the library to the rural to the betterment of rural conditions. They know, too, that the women are using ev-ery possible influence to have a portion of this appropriation applied to the rural home. In every community there is some lawyer sufficiently informed to make the import and progress of the bill so clear to the women that their active influence will be the result.

AN ACTIVE CIVIC CLUB

It is now in order to welcome a new and flourishing clvic club in the little town of West. Both men and women are members, and great things are in anticipation. Let there be a civic club in every Texas hamlet, for health, as well as for beauty.

THE BURMEISTER BILL MEETS AN OBSTACLE

The passage of the Burmeister bill towards engrossment in the Texas legislature met with a retarding force in its discussion last Tuesday. It failed by a few votes to pass to engrossment. However, the women of Texas who are working for suffrage and the men who are in accord with them are not daunted in their hope for ultimate success. Energies are redoubled.

A \$22,500 DRY GOODS ORDER

LARGEST OF ITS KIND EVER PLACED WITH A TEXAS HOUSE

THE SUPREMACY of our house was admirably demonstrated recently at the convention of buyers representing one of the largest lumber concerns in the South, when we were awarded the whole of the Texas business for the concern's commissaries, aggregating approximately twenty-two thousand five hundred (22,500) dollars' worth of dry goods and kindred lines of merchandise. When it is understood that this award was made to us in competition with the strongest of the Eastern and Northern houses, the importance of our house as a supply basis of first magnitude is strikingly evidenced.

HIS UNUSUALLY LARGE order is now being passed through our house for shipment and it is significant to note in connection with the filling of same that we are supplying practically every item as originally called for. The fact that we are able to do this is a tribute to the completeness of our stock, which at this time is the largest of its kind in the State. We believe that the placing of this order with us will be of farreaching effect in giving recognition to the Dallas market, for it shows conclusively that Texas is equipped to meet Eastern and Northern competition in every essential affecting prices, styles and quantities of dry goods merchandise.

HE ORDER in this instance is by no means the only recognition we have received of our ability to serve the trade on a competitive basis, as we have been visited by many buyers during the past few weeks who have heretofore gone almost exclusively to foreign market, among these being the representatives of as large syndicates and individual mercantile corporations as operate in the entire South, and without a single exception, we have met their needs. They have been unanimous in commendation of our house. What we have done in the several instances recited, we can again do, if given the opportunity.

Make Our New Home at the Corner of Jackson and Lamar Streets Your Headquarters While in Dallas

IN EXTENDING an invitation to visit us, we call attention to the merchants' third excursion now beginning, in connection with which the Dallas Trade League will refund the railroad fare of buyers visiting this market and purchasing \$750 or more of the several members of the organization. Although heavy buying has signalized the excursions which have passed, our stock is yet in a practically complete condition. Every department is supplied with the very latest merchandise for spring selling. With the advantage of low freight rates, quick delivery and Eastern competition, buyers will find the Dallas market an admirable one in which to place their business at this time.

Almost the first thing you will see in the film version of "Stop Thief" is when Harry Mesteyer turns his back upon the audience and behold, there are enough jewels pinned on the back of his vest to open a fair sized wholesale business. He had evidently gotten in some fine work before the picture ever started.

It is announced as a positive fact that a motion picture has never been so funny or so clearly told as in "Stop Thief" which plays here the last three days of this week. There is not a single moment that the eye is not treated to some act gently contained that the greatest photoplay.

It is the picturization of Hall Caine's superb love story made still more famous by Viola Allen. A guarantee goes with the announcement of the coming of "The Christian" to the effect that it is the most elaborate, most pretentious, most sumptuous film ever conceived. Edith Storey is to be seen as Glory Quayle. Earle Williams will play John Storm and Harry L. Northrupp will appear as Lord Roberts, the unscrupulous. The Vitagraph company have spent more than fifty thousand dollars to make this their greatest photoplay. Waco fans are to realize that they have not only made their masterpiece, but really the all-American masterpiece, for it is claimed that this picture embodies every detail that might be required of such high honors.

Washington, Feb. 27.—Bills discounted and loans made by federal reserve banks are increased about \$3,000,000 during the last week, according to the statement of condition Feb. 26, issued today by the federal reserve board. In its analysis of the week the board

In its analysis of the week the board says;

"The three southern banks—Richmond, Atlanta and Dallas—report over 75 per cent of the total amount of commercial paper held by all the banks. About \$1,900.000 of acceptances were bought by the New York, Philadelphia and Boston banks during the past week. As this paper matures only within 60 to 90 days, the proportion of short term paper is smaller than in previous weeks, the percentage of 30-day paper showing a decline from 43 to 35.4 per cent and that of 60-day from 39 to a little over 34 per cent. have been inspired by predictions of increased shipments here from the south for contract delivery, although there was no indication of increased offerings against actual during today's trading.

New Orleans.

New Orleans, Feb. 27.—Fear that England was about to add cotton to the contraband list caused much selling in the future market, and a small decline today. Covering of short cotton by bears who wanted to realize profits over the week-end, however, kept the tone steady and caused a complete recovery toward the end of the session. The close was at a net loss of only 1 to 2 points. At the lowest the trading months were points under yesterday's close.

Bulls were nervous because of the situation abroad and exporters were said to have withdrawn from the market. Telegrams from the interior of the belt said that the restrictions around shipping were having a most unfavorable effect and were making fresh business of any importance almost impossible.

Another unfavorable feature was the weather over the belt, which was against planting of grains. Traders consider that delay to planting of other crops will make it more difficult to hold down the cotton acreage when the time comes for planting the new crop.

Wheat.

Chicago, Feb. 27.—The wheat market today scored a substantial advance. Intelligence that forty warships had forced a passage many miles up the Dardanelles did not reach here until after trading hours. Prices closed strong 2½@4½c above last night. Other net gains were: Corn 2½@2½ to 2½c; oats, 1½@1½ to 1½c and provisions 5 to 12½c.

Buyers ruled the wheat pit from the start. The violent setback apparently had accomplished a drastic clearing out of weak holdings and had given fresh stimulus to export and milling demand. Traders' opinions regarding the Dardanelles situation leaned a good deal to the view that as far as the wheat market was concerned, reported progress of the allies against the Turks at Constantinople was not to be taken seriously as implying immediate results. It was in accord with this theory that nearly the highest prices of the day were in force at the wind-up.

Shiping and export sales amounting to about \$00,000 bushels put the corn market on the upgrade.

Seaboard demand remained urgent as to oats.

In provisions the feature was a raly exchange. The movement was upward at the outset, followed by general declines and an uneven close. Amalgamated Copper was strongest of the native list. Other speculative favorites, including United States Steel, the Pacifics and the coalers, made only fractional changes either way.

Foreign exchange was easier, the rate for London bills being slightly under yesterday's final quotations, while remittances on Germany repeated recent low record figures.

"Second—We ask your kindly and valuable consideration of the bill now pending undertaking to control public utilities in corporate cities and towns of Texas. We understand that the Robbins bill has been cut down until-it now includes only telephone, telegraph, pipe lines and interurbans. We believe that it would embarrass the extension and operation of any of these to be placed in the hands of the railroad commission.

orchestra with a pleasing variety of solos, readings and military tactics, the A. & M. college singers gave their first concert on their annual road trip at Carroll chapel last night before a fair-sized and very appreciative audience. The program was largely popular in its nature, but there were eral heavier musical numbers that gave an exceptionally well baalneed

In addition to choice collection of male college voices, the club has the assistance of Mrs. Abbie Lambert Mar-shall, a pleasing soprano soloist, and Miss Anita Park, a delightfully appealing reader and impersonator. The Zouave team, composed of the picked men from the drill squads of the college and their rapid-fire military feats and difficult athletic performances, easily proved one of the most attrac-tive numbers of the program.

The club will give a second concert t the Hippodrome theatre tomorrow night. C. A. Case is the director of the singers and last night proved the star male voice. Mr. Steger is the manager of the club and brought his singers to Carroll chapel under the auspices of the Baylor Round-Up man-

In "Booga Man," one of their most geenrously applauded glee numbers, the singers gave a semi-dramatic staging of the song. Other numbers given by the glee club were "Spring Revel" and chant selection. As an encore, the popular air of the day, "A Long, Long Way to Tipperary," was cheered for several returns of the

child impersonations and a pianologue that gave a happy touch to the program. She also gave the story of "The Happy Prince" with musical descrip-tion. Mrs. Lambert is a soprano sing-er of considerable experience as a soloist in the lyceum circles of the north

With a rapidity and precision that is most fascinating, if not bewildering, to an audience, the trained Zouaves, under Capt. Charles Stoner, mean much to the popular attractiveness of the concert. The gun drills and military tactics have a punch and vitalizing effect with none of the monotony attached some time to the staged drills.

The orchestra numbers were inter-

Galveston Cotton Exports.
Galveston, Feb. 27.—Cotton exports from Galveston during February set the high record for the 1914-15 season and surpassed any February exports in the port's history, amounting to 679,788 bales. This is 339,915 bales more than for the same period last year. Sixty-two steamships leaving the port during the month took cotton. Three of these were American steam-ers, destined for Bremen. Exports also went to Great Britain, France, Italy Spain, Japan, Russia and the Scandi-

navian states. Exports of wheat for Fe amounted to 3,555,306 bushels, France, Italy and Greece the principal purchasers.

Fine Sows for Bell County.

Temple, Feb. 27.—A carload of seventy-five registered Duroc Jersey brood sows, inoculated against cholera and bred to registered males, have just been received here from Fort Worth by H. C. Poe, president of the Temple State Bank, for distribution among members of the Boys' Pig club, who are anxious to try the experiment of hog raising. The sows are sold to the boys at actual cost and where desired Mr. Poe makes assignment of the animals to boys, taking in payment therefor their individual notes, which are to be met out of the profits arising from the transaction. The demand has been so great for the pigs that another carload probably will be purchased for distribution. Fine Sows for Bell County.

Farmer Found Dead.

Belton, Feb. 27.—J. A. Richard, a well known Bell county farmer, residing near Bland, 17 miles north of here, was found dead in his field yesterday by searchers who were hunting him following a short disappearance. When last seen alive he was burning brush at a spot near where the body was found. Sixtyeight dollars in money was found on his person. A coroner's jury was held and verdict rendered that death resulted from heart failure. Deceased was a bachelor 63 years old, and for thirtyeight years had lived alone on the same farm.

SPRING OPENING

A Superb Collection of the New Fashions will be formally presented at this Store Tuesday and Wednesday, March 2nd and 3rd. You are invited to attend

So smart, so becoming and so altogether beautiful are the Spring fashions for women that a very particular interest is attached to their formal introduction at this store.. We look upon our Spring Opening as an event of great importance, and we have given to it the careful planning and consideration that such a display deserves.

The Popular New Fashions

The Popular Fabrics in Suits Are: Serges, Gabardines, Poplins, Silk Faille, Shepherd Checks, etc.

In Dresses-Taffetas, Crepe de Chine, Crepe Meteor, Shepherd Checks, Pongees, etc.

In Waists-Crepe de Chines, Georgette Crepes Lingerie, Allover Lace, etc.

The extent of the assortments to be presented Tuesday and Wednesday will be understood when we say that no good fashion is missing from the display. If a style is beautiful, attractive and bids fair to be popular, it will be found here.

Inspection of our Spring Opening displays Tuesday and Wednesday will give you a far better and more comprehensive knowledge of the new fashions than could be obtained from any other source. We heartily urge you to come. You need not feel under any obligations whatever to purchase.

The Important New Fashion Features

IN SUITS the coats are short, just covering the hips. Skirts are all widely flaring. The tailored models have simple notched collars and the set-in sleeves are most popular.

SEPARATE COATS are mostly three-quarter length. The set-in sleeve is most in evidence, though some raglan and set-on sleeves are noted. Many novelty collars, including military effects, are shown. The belt effect and the semi-fitted effect are both popular.

> THE NEW DRESSES, almost without exception, show the wide skirt, 2 1-2 yards being the popular width. Collars are high in the back and low in the front. Many military collars are shown.

THE NEW WAISTS feature the tight-fitting full-length sleeve set in at the regular arm size. The collars are upstanding in the back and made adjustable in front so that the neck may be exposed or entirely encircled by the stand-up collar. The semi-fitted effects are best, and blouse very slightly.

SEPARATE SKIRTS are 21-2 yards in width. Circular and gored effects are most in evidence. Pockets are seen on many of the tailored models.

Medical Society Wants Nurse Named by the City at Once

An effort will be made to have the city commission act immediately on the matter of a district nurse for Waco, by the McLennan County Medical Society. The committee of the society named to meet with the city ommission to select a nurse had a meeting yesterday in the office of Dr. S. C. Gage and prepared to report at the meeting of the society Monday night. The city commission de-cided to adopt the suggestion of the Medical Society and to employ a nurse, but the matter was allowed to go over until the election was over. The members of the society are anxious to secure a nurse and feel that immediate action should be taken In the report of the committee tomorrow night the society will be urged On account of Tuesday, the regular meeting night of the society, being

a holiday, the meeting has been moved up to Monday night at 8 o'clock at

Applications must be made upon blanks furnished by the department. Prescriptions for the drugs mentioned must contain the name and address of the patient and be signed with the full name and register number of the physician. In addition the prescriptions must be dated and cannot be filled by the druggist except on the day on which

they are dated.

The law, however, does not say how often he may be prescribed for. Phy-sicians requiring morphine for pocket hypodermics must write prescriptions hypodermics must write prescriptions for the drug. The whole idea of the law seems to be to have a complete registry of all habit forming drugs used in the United States. No pre-scription can be filled over the tele-phone and none can be refilled. Copies of prescriptions can not be furnished.

Mrs. Belle C. writes: "I am informed that I have kidney trouble and that it is fast approaching a serious stage. What would you prescribe?"

Answer: If your symptoms are the usual ones, such as puffs under the eyes, swelling ankles; scant, copious or foul-smelling urine, accompanied by headaches, pains, depressions, fever, chills, etc., I would advise the immediate use of balmwort tablets, a very fine remedy for such difficulties, sold in sealed tubes with full directions for self-administra-

Answer: You need a laxative blood cleansing treatment in the form of three-grain sulpherb tablets (not sulphur). Overcome the tendency to constipation and gradually your good health and pure blood will return.

"Poor Nerves" writes: "Is is possible to find a medicine which by its tonic or nutritive powers will bring the glow of health and ambition back to a man who has everything in the world but health and happiness? I am dull, forgetful, despondent, weak, trembling, short of breath and suffer more or less with pain in spine and back of head."

Answer: Your condition indicates the in turn fortifies and strengthens the organs of nutrition, thus vitalizing the blood and promoting new cell and tissue to take care of the waste forces. Threegrain cadomene tablets, packed in sealed tubes with full directions, are recommended in all such cases.

"Morris" asks: "I have suffered with a chronic cough for almost a year, and catch a fresh cold every few weeks. Nothing the doctor gives me helps, so I write to you."

Answer: You need a thorough lavority. need of a strong, harmless tonic nutri-tive to restore nerve equilibrium, which

Answer: Do not worry about your rheumatism, as that can be very easily controlled by using the following: Get at the drugstore the ingredients named, mix thoroughly and take a teaspoonful at meal time and again at bedtime and you should soon be entirely relieved of that disagreeable disease, rheumatism. Answer: Go to a well-stocked druggist and get five-grain arbolone tablets in sealed tube with complete directions. Take as directed and you should soon feel the relief you desire. Many of my harmful action whatever.

Answer: You need a laxative blood cleansing treatment in the form of three-grain sulpherb tablets (not sulphur).

Overcome the tendency to constination.

Weight, and now?

Answer: Go to a well-stocked druggist and integrity. He said that was worth môre than getting a pig. He told of the need of "living at home," and said he hoped this would only be a start in the right direction. In response to questions, it transpired that fathers of twenty-two of the boys had fathers of twenty-two of the boys had pigs, while those of twenty-four did not. Six boys said their fathers did not have a cow, and one that there were no chickens on his father's farm.

There are 225 boys signed up now.

Answer: Begin taking three-grain typo-nuclane tablets with your meals and soon you will feel your strength returning and gradually your weight and color will im-prove. This is a most effective remedy if persistently used.

Texas stands unique among these Southern States. While the "Big Four" have practically no mortagage loans in Texas, sixty life insurance companies (forty foreign and twenty home companies) operating under the provisions of the Robertson Law have more mortgage loans in Texas than are held by all the life insurance companies in any other Southern State. Under this law life insurance companies are investing in Texas at the rate of over Ten Million Dollars a year. They are not doing it in any other Southern or Western State. No other State has such a law. A similar law is now pendi , in the Legislatures of six other States: Wisconsin Michigan, Kansas, Oklahoma, Wyoming and North Dakota.

The Gibson Bill, now pending in the Senate, provides a sweeping repeal of the Robertson Insurance Law. It relieves all companies from being required to make any investment in Texas, and remits all taxes due the State by the seventeen companies that permanently withdrew their agents from the State and ceased writing new insurance here seven years ago when the Robertson Law passed. These companies have since continued to collect premiums from citizens of Texas amounting now to about \$40,000,000. They have made no investments (except policy loans that they were compelled to make and have not paid the taxes that they were practically under contract to pay to the State out of such collections. These taxes sum up now about \$1,000,000.

All friends of the Robertson Law are requested to urge their representatives in the Legislature to oppose the passage of the Gibson Bill.

Back From Market

J. C. Daniels has recently returned from an extended buying trip on which he has visited New York, Chicago, Philadelphia and other leading markets in selecting laces, embroideries, women's and children's hosiery, gloves, neckwear, jewelry, art goods, ribbons, handkerchiefs and dress trimmings for these departments of the Sanger store.

Mr. Daniels ranks among the oldest of Southern buyers and his ability to secure beautiful novelties as well as remarkable values in his respective lines is recognized throughout the state by the buying public and throughout the markets by the American producers as well as the importers of foreign merchandise.

Together with the other department managers and buyers of the Sanger store Mr. Daniels is planning for the most elaborate style show and formal spring opening in the history of these events, and as usual the various departments of this metropolitan store will vie with one another for richness and beauty of effect during the fashion exhibition of the week.

TIC BUILDING NAVS TO COMMENCE

O BE PLACED BEFORE OUTFIELDER HICKEY FIRST MAN TO REPORT FOR PRACTICE TO ELLIS HARDY.

RATORICAL TUESDAY PROSPECTS GOOD FOR SEASON

Many Veterans Will Be in Line-up with a Sprinkling of Men New to Texas League.

John Hickey, from the Ohio State league, had the honor of being the first Navigator to report for 1915 duties, arriving yesterday. Hickey lives at Watervleit, N. Y. He is an outfielders.

Ellis Hardy's colts and veterans will begin to gambol tomerrow morning, and gambol is good, for the grass is green and the weather to date is warm. In other words, baseball weather is here about three weeks ahead of schedule. Monday will see practically all of the recruits and regulars on the job except Pitchers Jack Ashton and Hatton Ogle. Ashton has been granted permission to coach the Southwestern University team at Georgetown, and will get his workouts with his college proteges. Prof. Ogle still has a bunch of budding Texans at Mesquite whom he is instructing in the three Rs and incidentally the way to fool a batter. He will not report until school lets out. However, Hatton always reports in physical trim, doing considerable work. His school will be out about March 15.

Jesse James, outfielder, the man who got that hit one Sunday last year against Houston, severed one of his toes while amputating the neck of a chicken or chopping fodder and will not report until the toe heals. He reports that the accident will not affect his batting average.

For the first time in the history of

age.

For the first time in the history of baseball in Waco the season will open with a grass infield, provided no freeze occurs before April 6. Katy park is in fine condition. A new and muchly-needed roof has been put on the grand stand, and the bleachers have been repaired. Grounds in Good Shape.

Grounds in Good Shape.

Last year the infield was new, the turtle-back having been scraped off and built up. This season little remained to be done except rolling and raking. Several men have been at work for the past few days, and the diamond looks unusually inviting.

The men will be given light workouts for several days, increasing as they limber up winter-stiffened muscles. Hardy is loathe to crowd his men, not allowing them to run the risks of sore arms, cholly hosses and other spring training camp ailments. As a result of this care last year, he brought his men into the season more nearly in good condition than any other team in the league. It will be some time before he will allow the youngsters to show him "what they've got." He says that he could probably save board bills by starting the elimination right off the reel, but figures it a poor saving. His old men, he says, he knows well enough to give time to get in trim, and the youngsters will show better when they are in shape that by hurrying. So none of the young Mathewsons will be allowed to "put anything on the ball" for some time, and if they attempt to do so will be promptly called to a halt.

Following is a list of the men, with

Basball Gossip from the Dallas Sport's Viewpoint

Dallas, Feb. 27.—When the curtain swings up on the first show of the 1915 baseball season in Dallas it will find something else beside baseball before the admiring populace. The dedication of Gardner Park, the new baseball factory of the local club, will be the stern duty assigned to a half-dozen language heavers and eighteen players (perhaps they'll be, anyway) of the New *York and Dallas brands of Giants. The big mass play will start promptly at 2:30 o'clock next Saturday afternoon, March 6.

Veteran players of the Texas league veteran players of the Texas league will get a shock of surprise when they see the new park of the Gardners. While the Gaston Park field was a desirable piece of baseball property, it does not begin to rival this new outfit. The stands are modern and the grounds skillfully arranged to give a view of the game from every portion of the stands. The playing field is a splendid one.

However, there is another side of the new park which may not please that part of the talent which entertains on the part of the talent which entertains on the third-base and left-field side. The bleachers are so close that all the loving messages thrown out by the sun gods won't fall on desert air. Rather the contrary. The sun will not be the only thing to make the "hot-dog" corner guardians hot under the collar.

Joe Dunn, the new pilot of the Giants, got on the job early this season. He is now receiving recruits and teaching them not to eat with a knife before the regular playing season opens. Boss Joe hopes to cull a real third baseman, two pitchers and one catcher out of the sword swallowers.

For the infield jobs Dunn has Kellerman, Ens and Schwind, all two-fifty hitters and fast on the bases. Third base is the hole to fill. In the outfield a surplus of three-hundred hitters is to be found. The candidates did not hit those three hundred where the weeds grow high, either, which makes the local outfield look the best in the league. Harrison, Storch and Harber are the 1914 men to return.

Joe Dunn says he will catch one hundred games at least, and will use only one assistant. In the box he has Mulns, a good left-hander, and Jim Sewell, a right-hander. Gardner has one real pitcher coming from McGraw, and expects two out of the haul. The net now holds about ten or twelve hopefuls.

District Conference

Dates for the district boys' conference to be held at the Y. M. C. A. have been set for March 19, 20, 21. An arrangement committee consists of T. S. Montgomery, W. H. Gohagan, A. J. Flowers and Mrs. W. E. Harman. At the last meeting of the committee it was decided to select a committee of boys to carry out certain details of the conference.

The Sunday schools of the city will be invited to send representatives to the conference. Boys from Mart, McGregor, Hillsboro, Marlin and West will also attend.

Class Z Minus for the Panther City

Fort Worth, Feb. 27 .- The Panther City Stove league should be ranked as class Z minus, as there has been very little baseball activity here since last squad which has been in training in Tex-October. The Panthers' board of strategy, as for several days. Secretary LaGrave and Manager Nance. has been very busy in its plans for the 1915 season for several weeks, but it is stingy with the dope handed out from headquarters.

The Panther bosses seem to harken

The Panther bosses seem to harken back to the days of the copy books, and work on the plan that "Silence is golden." But little news as to what the 1915 team will look like when it lines up for the training season has been published, and no claims have been made as to the strength of the club and pennant winning chances.

strength of the club and pennant winning chances.

However, there'll be something doing
here Monday, March 1. On that date the
candidates for battery positions will report for training. Twelve pitchers will
be given a chance by the Fort Worth club
this season and four catchers. Candidates for other positions will not report
until March 8.

The first major league exhibition game

dates for other positions will not report until March 8.

The first major league exhibition game here will be played on March 19 against the Cleveland Indians and the Cardinals will be here for two games, March 20 and 21. Prior to the Cleveland games, the Panthers will have several frays with local teams and clubs from the Western association.

One change will is to be made in the Fort Worth park this year which meets the approval of the fans here, and it is certain that the players will not object to it. New fences are to be built around the field, which will bring the walls much nearer the home plate and make it possible to get circuit clouts over the barriers.

TEXAS GETS TWO PLAYERS.

Auburn, N. Y., Feb. 27.—Secretary John H. Farrell of the National association of professional baseball clubs tonight gave out the following notices relating to minor league players and clubs: The territory of Sherman, Texas, has been added to the Western Association. The following players have been released by purchase:

Winston Salem, N. C.—Luther Stuart to Galveston.

Richmond, Va.—Tod Sloan to Fort Worth.

Buffalo, N. Y., Feb. 27.—The Federal baseball league adjourned its two days' session late today and will meet in Pittsburg March 13. By that time it is expected that the court obstacle preventing the transfer of the Kansas City franchise to Newark would be settled and the season's playing schedule could be adopted.

No official approprement as to the

Way Things Look in the City of Houston

Houston, Feb. 27.—Unless the future holds a wealth of trades and unexpected developments, the Houston club, finishing first in the legislated dead heat of the Texas league last season, will enter the 1914 campaign largely depending on veteran talent. But the old heads will

the 1914 campaign largely depending on veteran talent. But the old heads will be seasoned with a dash of new blood to supply an even balance.

The Buffs unquestionably will miss Frank Kitchens, whose wonderful work behind the bat, more than any one factor, put the Champs in the running in 1914; but the catching outlook now is bright indeed. As a matter of fact, Houston has too many maskmen. In addition to Sledd Allen, the veteran wheelhorse, there are two promising youngsters. Wray Guerry was obtained from the West (Trolley league) club after a wrangle before the board of arbitration with Dallas. Querry finished the season with Gardner's Pets last year and in twenty-two games hit over .290. Howard Baker, who was farmed to Talldega in the Georgia State by Montgomery last in the Georgia State by Montgomery last year, has been purchdased from the St. Louis Browns. Then there is Lee Lem-on, who can don the protector when nec-

on, who can don the protector when necessary.

The two young receivers, Querry and Baker, will find callow youth at their side in pitcher Ray Smith, a Missourian, who tried out with Houston last year and showed a world of stuff, but who lods about ten or twelve hopefuls.

Dallas will open the exhibition season with the New York Giants and will keep the big league stuff on tap for one month as five big league teams play series here. They will jump from this right and who four games for Houston last fall. Glenn was a T. & O. star. Kitchens is the only veteran lost by Houston, and the club expects to have baseball year really begins on March 6. It looks like a good season, with the Texas league circuit taking up lots of slack because of the advent of Shreveport, a real baseball

McGregor 22 to 13

The Waco High School girls' basketball team defeated McGregor High yesterday in the Y. M. C. A. gymnasium by a score of 22 to 13. There was unusual snap throughout the game. The visitors threw the first goal, but that was the only time they were ahead, although at the end of the first half the score was 9 to 7 in favor of the locals, and in the second third the visitors tied the score.

Miss Rogers starred with her good work at forward for McGregor with five field goals and one foul. Miss Johnson for the visitors threw two fouls out of the trials.

Jos. R. Barton, Waco's coach, is highly pleased with the game, declaring it was won not by individual starring, but by consistent team work. Miss Crosslin and Miss Jameson threw four field goals each and Miss Crosslin threw 6 out of 7 fouls.

The local team will go to McGregor March 13 to play them on their own court.

Position. McGregor Child was a manager George O. Leidy's release that it was necessary to have a playing manager because of the player limit. He predicts that Swan will have a winning team in Beaumont this year, but says that Leidy did something no other manager had been able to do, that is, to put a Beaumont team in the first division. The fans are all behind Swan this year and he has the confidence and respect of all the players, who will give him the best they have all the time.

The exhibition season opens next Saturday, when the St. Louis Browns will be here for two games, March 6 and 7. Other games are scheduled with the Clevland Americans and the New York Giants. Arrangements are also being manager because of the players louise.

The local team will go to McGregor March 13 to play them on their own court.

The line-up in yesterday's game was as follows:

GIANTS AT MARLIN.

Marlin, Feb. 27.—All of the New York Giants have arrived except the party that will arrive with McGraw tomorrow. Among those here are Rube Schauer, pitcher from New York Giants; Homer pitcher from New York Giants; Homer Glass, Indian pitcher from Oklahoma; E. G. Erickson, pitcher, from Dallas; W. H. Ritter, pitcher, was with Giants last year; H. Huenke, from Dallas; Fred Cook, pitcher who formerly was a star with San Antonio under the name of Winchell, for two seasons with Columbus in American Association; A. E. Gipe, from the Seattle club of the Pacific Coast league: A. Kismeyer, from the Decatur and Brant; infielders Cooke, Love, Bobo and Dodd; outfielders, Nixon az Clark; the new men are Catchers Tom Carson, Frank A. Durr, William Massey, C. J. Hall, Steve Basil, Tom Bonner and Harry O'Donnell; Infielders W. Loman, Myers, E. F. Osborne; Outfielders Carrington Sweeney and M. A. Elliott; Pitchers Robin Conroe, T. J. Dean, Walter Ward and Orville Ewing.

The latest acquisition to the local squad is Steve Basil, a catcher, and a product of the local lots. Basil is well built and has the ear-marks of a comer. He played semi-pro ball at Benton, La., last season, and Pitcher Bill Taff says he is a world beater. Dean is another semi-pro who looks promising. Orville Ewing, a product of Carlie Carr's base-ball school, looks like the fifth man on the pitching staff, the other four being last year's regulars. Carson and O'Donnell will most likely hold down the receiving end. The others are hard to decide on.

Local fans and players are up in arms over an article that appeared in a recent issue of the Sporting News con-

Prospects for a good season in the Texas league have become brighter in the last month. The European war beban after the season was well under way last year and by the end of the playing season the attendance had become materially affected. The second division clubs all lost money. It was stated unofficially that San Antonio, under the Block management lost \$10,000 last year. With business conditions becoming better every day, it is believed that the season in Texas will be a brilliant success. San Antonio is under new and popular management. Dallas has a new park and seems to have entered the fight with new zeal. Fort Worth has changed business management and the Panther business management and the Panthe City is optimistic. Shreveport is in the league instead of Austin, assuring a betterment in that respect. Galveston, Houston and Waco will always be able

Waco Boy Receives
Fourth "T" of Year

James (Pete) Edmond of Waco recently received his letter for making the basketball team this season at State University. Edmond this year will accomplish that dream of every college athlete, which is seldom realized, namely making four letters in one year. He played football, basketball and represented the University on the wrestling team. He will go with the wrestlers soon to Chicago and several other middle western colleges.

Others who received letters for basketball this season are Grady Ross of Henderson, Clyde Tattlefield of Berclair, Robert Blaine of Houston, H. Blackburn of Appleby, L. Robertson of El Paso, James A. Smith of San Antonio, J. C. Diller of San Antonio, Joe Secor of Houston and J. L. Thomas of Austin, the last five being awarded "T seconds."

The present activity contest among the boys of the Y. M. C. A. will close about the middle of March. This will be the last contest of the year and keen interest is being manifested. Following is the standing of the teams: Doves 1115, Plovers 1092, Sparrows 1087, Canaries 1094, Rice Birds 987, Humming Birds 959, Cheechees 948, Whipporwills 771, Black Birds 769, Blue Jays 554, Qualis 771, Black Bi the middle of March. The Army wound up a successful season today by defeating Washington and Lee University 44 to 20 in a fast game.

Eleven victories out of thirteen games played was the record for the cadets during the past season.

BOXING COMMISSION CREATED.

Oklahoma City, Feb. 27.—With only four dissenting votes, the Sykes bill establishing a state boxing commission passed to final reading in the Oklahoma house of representatives Saturday. It is expected to be brought up for final passage in the house Monday and then it goes to the senate, where it is expected to be adopted almost unanimously. Governor Williams has been quoted as saying he was ready to sign the bill as soon as it passes both houses.
